Your Refrigeration, Your Rules! The Most **CONFIGURABLE** Units Since 2008.

Experience the power of adaptability with CyberChill Refrigeration – where we don't just cool; we empower you to set the rules. Since introducing our pioneering E1 unit in 2008, we have been on a mission to make configurable refrigeration truly yours. Welcome to a new era in refrigeration, an era where our innovative E3 designs redefine the meaning of configurability.

In the dynamic world of refrigeration, change is constant. Chefs change, menus evolve, layouts shift and CyberChill is your solution. Our units aren't just refrigerators; they're transformers ready to adapt to your changing needs. Customisation isn't a one-time affair; it's an ongoing journey.

Unleash the Possibilities

CyberChill puts the 'custom' in customer. With us, you can:

1. Configure between doors and drawers.

2. Configure left or right-hand doors or revel in the convenience of 2 or 3 drawers.

3. Configure air-blown or solid worktop.

4. Configure glass doors or solid doors.

5. Maximise your footprint with left or right-hand service*

*Possible at the time of manufacture

6. Configure your height and movement.

Also suitable for plinth mount.

7. Configure your locks.

8. Configure between fridge or freezer.

On-Site Swaps, No Hassle

Worried about modifications? Don't be. CyberChill's experts can swap configurations on-site at your venue. It's refrigeration that moves with you, evolving as you do.

Join The Swap Revolution

It's time to ask yourself how configurable your potential new unit is once manufactured and installed. Why be stuck with a static refrigeration setup that can't be modified long-term? Join the CyberChill Swap Revolution, break free from the limitations of traditional units, and embrace refrigeration that moves to your rhythm. That's actual configurability!
